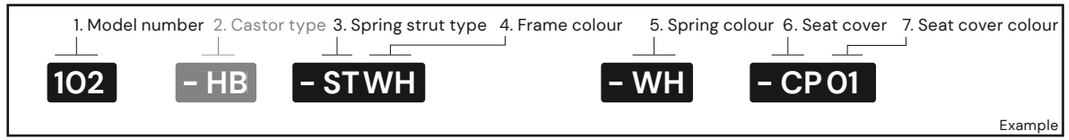
Components of the Aeris Swopper article number easily explained.



1. Model number

	Article code
Glides	101
Castors	102

2. Castor type

(only for model 102 with castors)

	Article code
Hard floor castors (tiles, parquet, laminate or similar)	– HB
Soft floor castors (carpet, PVC, felt or similar)	– WB

3. Spring strut type

	Article code
Standard: Body weight: 50 - 120 kg Height adjustment range under load: 45 – 59 cm Height adjustment range without load: 52 – 66 cm	– ST
Low: Body weight: 50 - 120kg Height adjustment range under load: 42 – 56 cm Height adjustment range without load: 50 - 64 cm	– LO
High:* Body weight: 50 - 120kg Height adjustment range under load: 49 – 69 cm Height adjustment range without load: 56 – 76 cm	– HI
Light: Body weight: 35 - 50kg Height adjustment range under load: 42 – 56 cm Height adjustment range without load: 47 – 61 cm	– LI

* Available only for Aeris Swopper with glides.

4. Frame colour

	Article code
white	WH
black	BK

5. Spring colour*

	Article code
white	– WH
black	– BK

*** Spring colour same as the frame colour (white, black).**

6. Seat cover

	Article code
Artificial leather (Uruguay, Elastron)	– UR
Recycled Post-Consumer Polyester (Cura, Gabriel)	– CU
Wool blend (Capture, Gabriel)	– CP
Wool blend (Select, Gabriel)	– SE
Microfibre (Comfort, Gabriel)	– CM
Mesh fabric (Runner, Gabriel)	– RN
Leather (Atlantic, Heller-Leder)	– LA

7. Seat cover colour

Please first select the seat cover colour for the Aeris Swopper. The relevant article code (Aeris colour code) can be found on the following pages. Simply put it behind the article code of the seat cover (without hyphen).

Gabriel Capture features

The use of lightly felted, multicolored wool in this material gives it a unique and appealing texture. The sophisticated melange pattern creates a fascinating look that immediately catches the eye. But not just visually, the feel of this material is also impressive across the board. The wool is incredibly soft and comfortable, which guarantees a pleasant and cozy sitting or reclining experience.

The outstanding wear resistance of this material guarantees a long service life and maintains its aesthetics even with regular use and stress. This makes it a durable choice that can withstand the high demands of daily use.

Finally, the Capture wool cover meets the demanding requirements of the furniture industry, which further underlines its quality and performance. It is therefore a reliable option that meets the standards of the furniture industry.

Capture-Specifications

Design no.	2472
Composition	85% New Zealand wool / 15% polyamide
Weight	g/lm 475 oz/lin.yd 15.32
Width	cm 140 inches 55

Rubbing fastness	scale 1-5, max. 5 - EN ISO 105x12 (dry/wet) 4-5/4-5
Care instructions	dry cleaning P(S)
Flammability	BS EN 1021 1&2 Cigarette and Match BS 5852 Part 1 0,1 Cigarette & Match, The Furniture and Furnishing Regulations 1988 Class Uno UNI 9175 Class 1 I EMME CA TB 117-2013 ASTM E 84 Class 1 Will also pass other flammability standards. Flame retardant performance is dependent upon the foam used. Contains no flame retardant chemicals.
Environment	OEKO-TEX® STANDARD 100 EU Ecolabel

Gabriel Select features

This impressive material boasts an elegant simplicity that is accompanied by an allround user-friendly design. With an extensive full spectrum color palette, it offers an almost endless variety of possibilities for design, making it fits perfectly with a wide variety of furnishing styles.

Thanks to its superior abrasion resistance, measured by an impressive 200,000 Martindale cycles, this material is extremely durable and resistant, even in heavy-duty environments. It is therefore an ideal choice for Highly frequented rooms such as public areas, offices or restaurants that require a durable solution.

The environmental friendliness of these materials is confirmed by the EU Ecolabel, which makes its production sustainable and environmentally friendly. It also fulfills the STANDARD 100 of OEKO-TEX®, which means that it has been tested for possible harmfulsubstances is considered safe for human use.

Pricelist-Aeris-Swopper-EN-net-Euro / Status: March 2025

Gabriel Cura features

The Cura fabric cover is characterized by a warm, casual aesthetic that is complemented by a lively melange effect and a soft, voluminous texture.

But this material is not only visually appealing - its high stretchability enables flexible use, making it perfect for office and lounge furniture. But what makes this material special is its sustainability. As much as 98% of the material is made from recycled post-consumer polyester, which makes a significant contribution to reducing waste. In addition, the entire material is 100% recyclable and therefore contributes to a closed-loop economy.

But this material also scores highly in terms of ecological standards. The EU Ecolabel shows that it meets strict environmental criteria and is therefore an environmentally friendly choice. It also fulfills meets the requirements of STANDARD 100 by OEKO-TEX®, which means that it has been tested for possible harmful substances and is considered safe for human use.

Cura-Specifications

Design no.	2480/2544

Environment	OEKO-TEX® STANDARD 100 EU Ecolabel

Gabriel Comfort features

The high-quality fabric was specially developed for intensive use and has outstanding properties. With an impressive Martindale value of 150,000, it is extremely hard-wearing and resistant to abrasion.

Thanks to the use of carbon fibers, the fabric is permanently antistatic, which means that it hardly collects any dust and is therefore particularly easy to clean.Furthermore it is dirt-repellent and water and oil repellent, making it extremely resistant to soiling.

Another plus is its openness to diffusion, which means that the fabric enables excellent air and moisture exchange and thus counteracts the formation of mold.

Safety is a top priority with this fabric, as it is permanently fire-resistant - a property achieved by fire-retardant fibers. It therefore offers a high level of safety and protection.

For the environmentally conscious buyer, it is important to know that this fabric contains 37% recycled fibers, whichcontributes to the sustainable use ofresources.

And to top it all off, the fabric manufacturer offers a generous 10- year guarantee against abrasion and pilling, which further reinforces confidence in the quality of this product.

The fabric also meets the requirements of the renowned STANDARD 100 by OEKO-TEX®, which means that it has been tested for harmful substances and is considered safe for human use.

Comfort-Specifications

Gabriel Capture features

The use of lightly felted, multicolored wool in this material gives it a unique and appealing texture. The sophisticated melange pattern creates a fascinating look that immediately catches the eye. But not just visually, the feel of this material is also impressive across the board. The wool is incredibly soft and comfortable, which guarantees a pleasant and cozy sitting or reclining experience.

The outstanding wear resistance of this material guarantees a long service life and maintains its aesthetics even with regular use and stress. This makes it a durable choice that can withstand the high demands of daily use.

Finally, the Capture wool cover meets the demanding requirements of the furniture industry, which further underlines its quality and performance. It is therefore a reliable option that meets the standards of the furniture industry.

Pricelist-Aeris-Swopper Backrest-EN-net-Euro / Status: March 2025

Gabriel Comfort features

The high-quality fabric was specially developed for intensive use and has outstanding properties. With an impressive Martindale value of 150,000, it is extremely hard-wearing and resistant to abrasion.

Thanks to the use of carbon fibers, the fabric is permanently antistatic, which means that it hardly collects any dust and is therefore particularly easy to clean.Furthermore it is dirt-repellent and water and oil repellent, making it extremely resistant to soiling.

Another plus is its openness to diffusion, which means that the fabric enables excellent air and moisture exchange and thus counteracts the formation of mold.

Safety is a top priority with this fabric, as it is permanently fire-resistant - a property achieved by fire-retardant fibers. It therefore offers a high level of safety and protection.

For the environmentally conscious buyer, it is important to know that this fabric contains 37% recycled fibers, whichcontributes to the sustainable use ofresources.

Gabriel Cura features

The Cura fabric cover is characterized by a warm, casual aesthetic that is complemented by a lively melange effect and a soft, voluminous texture.

But this material is not only visually appealing - its high stretchability enables flexible use, making it perfect for office and lounge furniture. But what makes this material special is its sustainability. As much as 98% of the material is made from recycled post-consumer polyester, which makes a significant contribution to reducing waste. In addition, the entire material is 100% recyclable and therefore contributes to a closed-loop economy.

But this material also scores highly in terms of ecological standards. The EU Ecolabel shows that it meets strict environmental criteria and is therefore an environmentally friendly choice. It also fulfills meets the requirements of STANDARD 100 by OEKO-TEX®, which means that it has been tested for possible harmful substances and is considered safe for human use.

Cura-Specifications

Design no.	2480/2544
Composition	100% post-consumer recycled polyester
Weight	g/lm 420 oz/lin.yd 55
Width	cm 140 inches 55
Abrasion	rubs Martindale (EN ISO 12947-2) 100.000 Double Rubs Wyzenbeek (ASTM D4157-07) (heavy duty upholstery) 100.000 ASTM D4157-07 Wyz-abrasion (heavy duty) 100k pass Abrasion test results exceeding ACT Performance Guidelines are not an indicator of product lifespan
Pilling	scale 1-5, max. 5 - EN ISO 12945-2 4-5 ASTM D3511 Pilling pass
Light fastness	scale 1-8, max. 8 - EN ISO 105-B02 5-8 AATCC 16 Light fastness pass
Rubbing fastness	scale 1-5, max. 5 - EN ISO 105x12 (dry/wet) 4-5/4-5 AATCC 8 oder 116 Dry/wet crocking pass
Care instructions	wash or dry cleaning P(W) Cura is made of polyester which is a material suited for environments with special requirements for cleaning. 40°C shrinkage max. 1%.  60°C shrinkage max. 2%.
Flammability	BS EN 1021 1&2 Cigarette and Match CA TB 117-2013 ASTM E 84 Class 1 Will also pass other flammability standards. Flame retardant performance is dependent upon the foam used. Contains no flame retardant chemicals.
Environment	OEKO-TEX® STANDARD 100 EU Ecolabel

Heller-Leder Atlantic features

The ideal upholstery for the office - Atlantic leather not only impresses with its high quality and beautiful surface embossing, but also offers optimum seating comfort. The soft leather is easy to care for, breathable and is characterised by its antistatic properties.

Gabriel Select features

This impressive material boasts an elegant simplicity that is accompanied by an allround user-friendly design. With an extensive full spectrum color palette, it offers an almost endless variety of possibilities for design, making it fits perfectly with a wide variety of furnishing styles.

Thanks to its superior abrasion resistance, measured by an impressive 200,000 Martindale cycles, this material is extremely durable and resistant, even in heavy-duty environments. It is therefore an ideal choice for Highly frequented rooms such as public areas, offices or restaurants that require a durable solution.

The environmental friendliness of these materials is confirmed by the EU Ecolabel, which makes its production sustainable and environmentally friendly. It also fulfills the STANDARD 100 of OEKO-TEX®, which means that it has been tested for possible harmfulsubstances is considered safe for human use.

Select-Specifications

Design no.	2498
Composition	85% New Zealand wool / 15% polyamide

Flame retardant performance is dependent upon the foam used. Contains no flame retardant chemicals..
Environment	OEKO-TEX® STANDARD 100 EU Ecolabel

Gabriel Comfort features

The high-quality fabric was specially developed for intensive use and has outstanding properties. With an impressive Martindale value of 150,000, it is extremely hard-wearing and resistant to abrasion.

Thanks to the use of carbon fibers, the fabric is permanently antistatic, which means that it hardly collects any dust and is therefore particularly easy to clean.Furthermore it is dirt-repellent and water and oil repellent, making it extremely resistant to soiling.

Another plus is its openness to diffusion, which means that the fabric enables excellent air and moisture exchange and thus counteracts the formation of mold.

Safety is a top priority with this fabric, as it is permanently fire-resistant - a property achieved by fire-retardant fibers. It therefore offers a high level of safety and protection.

For the environmentally conscious buyer, it is important to know that this fabric contains 37% recycled fibers, whichcontributes to the sustainable use ofresources.

And to top it all off, the fabric manufacturer offers a generous 10- year guarantee against abrasion and pilling, which further reinforces confidence in the quality of this product.

The fabric also meets the requirements of the renowned STANDARD 100 by OEKO-TEX®, which means that it has been tested for harmful substances and is considered safe for human use.

Comfort-Specifications

Design no.	8580
Composition	51% polyester/37% post-consumer rec.pes./ 12% polyurethane incl. antistatic fibers and fire retardant fibers in the backside
Weight	g/lm 385 oz/lin.yd 12.42
Width	cm 140 inches 55

Pricelist-Aeris-Muvman-EN-net-Euro / Status: March 2025

Gabriel Cura features

The Cura fabric cover is characterized by a warm, casual aesthetic that is complemented by a lively melange effect and a soft, voluminous texture.

But this material is not only visually appealing - its high stretchability enables flexible use, making it perfect for office and lounge furniture. But what makes this material special is its sustainability. As much as 98% of the material is made from recycled post-consumer polyester, which makes a significant contribution to reducing waste. In addition, the entire material is 100% recyclable and therefore contributes to a closed-loop economy.

But this material also scores highly in terms of ecological standards. The EU Ecolabel shows that it meets strict environmental criteria and is therefore an environmentally friendly choice. It also fulfills meets the requirements of STANDARD 100 by OEKO-TEX®, which means that it has been tested for possible harmful substances and is considered safe for human use.

Cura-Specifications
